

# HD WIRELESS HEADSET

## POLARIS LIFTER AND EHS DATASHEET

Answer and End Calls Remotely

The **Polaris Handset Lifter** and **Electronic Hookswitch (EHS)** unleash the full potential of your HD Wireless Headset, allowing you to Answer and End Calls while away from your desk.

### Freedom and Convenience

The Polaris Handset Lifter and EHS cable give you Complete Call Control via your HD Wireless headset from up to **150m away** from your telephone, increasing your productivity and efficiency.

- Hear incoming call notifications
- Answer & End Calls remotely (with a single button press)
- Mute and unmute your microphone
- Adjust the volume

### Polaris Handset Lifter

The Polaris Handset Lifter's hard-wearing mechanics are designed to lift and lower thousands of times, making it one of the most robust and reliable remote handset lifters on the market.

Features	Benefit
<b>Remote call control and incoming-call alert</b>	Never miss a call – even when away from your desk. Pick-up and hang-up with a single press of your headset's Call Control button.
<b>Low Profile Design</b>	One of the smallest handset lifters on the market. Fits most telephone handset models and takes up less of your desk space.
<b>Able to lift even the heaviest handsets</b>	Reliable and durable
<b>Built-in online indicator light</b>	Clearly indicates to others when you are on the telephone
<b>Universal Compatibility</b>	Compatible with almost every telephone handset. Easy installation.
<b>1 Year Warranty</b>	Peace of mind that you are using a high quality product.

## Electronic Hookswitch (EHS) for Polycom, Cisco & Avaya Telephones

The Polaris EHS is suitable for Polaris' HD and Soundshield Wireless Headsets and is available to suit a variety of Polycom, Cisco and Avaya telephones. Simply connect one end of the Polaris EHS cable to the telephone, and the other end to the Wireless Headset base.
